PATENT APPLICATION
IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Glenn G. Strawder

Serial No.: 09/865,696

Filed: 05/29/2001

For: A Method For Monitoring Radiology Machines, Operators and Examinations

SUMMARY OF THE INTERVIEW

Honorable Commissioner of Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

On April 3, 2008, Mr. Hall and Mr. Strawder met with Examiner Rachel Porter and discussed the application. Mr. Hall and Mr. Strawder said that Howson's reference was not the same type of medical device as applicant. Mr. Hall and Mr. Strawder said that Prince's reference was not the same type of medical device as applicant. And, Mr. Hall and Mr. Strawder said that Dorne's reference also was not the same type of medical device as applicant.

Even if the combination of Howson, Dorne and Prince is made it does not meet the claims of applicant, neither Howson, Dorne nor Prince teach "...a computer for storing a first series of steps that an operator should perform when using said medical imaging machine..." (an excerpt of Claim 65), nor does either teach a computer "... storing a second series of steps that set forth what the operator performed during the use of said medical imaging machine..." (Also an excerpt of Claim 65).

Mr. Hall and Mr. Strawder discussed claim language change to reflect that applicant's invention was drawn toward medical imaging machines.

Respectfully,

William D. Hall
Attorney for Applicant
